

INTRODUCING THE  
**ULTRA LENS**  
*ULTRA-LOW ABSORPTION LENS*

FMS HAS BEEN SELLING THE ULTRA LENS FOR A WHILE NOW AND THE RESULTS ARE POSITIVE.

**The benefits of using our Ultra Lens over standard lens are:**

- 50% lower absorption compared to higher absorption standard lens
- Great value for your dollar considering the cost is about the same
- Over 25% longer life
- Better cut quality and greater consistency
- Capable of cutting thicker materials
- Handles powers up to 6kW
- Reduces back splatter which extends the life of the lens
- Improves feed rate and laser operating costs

The Ultra Lens technology has been thoroughly tested by OEM's and laser operators. All Ultra Lenses are vacuum packaged and go through 100% factory testing to ensure that the highest quality lenses are delivered to laser operators

**AVAILABLE FOR MOST LASER TYPES**
