

Consumables Testimonial

“As a company that specializes in custom fabrication we are constantly cutting a wide range of material and thicknesses on our laser. The consumables (Ultra lens, insulator, nozzles) we purchase need to be top quality as we depend on them for accuracy and minimum downtime from failure while being use on a daily basis. We purchase our consumables from FMS Inc. as they provide excellent products and services that we rely on to be successful.”

Mike Smith,
Novatek Welding and Fabrication
